

# Meter switch update: TEE2 to CareSens S Fit

Your blood glucose meter and test strips will switch from the TEE2 to the CareSens S Fit. Don't worry, the meter functions are almost identical, with the main features remaining the same:

- Bluetooth functionality
- Downloads to SmartLog, Glooko and Diasend
- Small blood sample size: 0.5  $\mu$ L
- Stores 1000 test results
- Total, pre-meal, post-meal and fasting averages over 1, 7, 14, 30 and 90 days
- Large clear screen and easier to hold due to the new round edge shape.
