

Blood Glucose Meters

Solutions for People Living with Diabetes

spirit
health

Active Implementation

01. Identify patients

Spirit Implementer carries out audit on GP Practice clinical system to identify who meet the agreed criteria for the meter review

02. Patient and product review

Spirit Implementer reviews patient notes to confirm suitability for change of meter.

03. GP approval

GP approves patient list and new meters ordered for patients to collect from practice.

04. Product update

Spirit Implementer actions the approved changes and updates the patients clinical record.

05. Communication to patients

Spirit Implementer sends confirmation of changes to patients with instruction to collect the meter at their convenience.

06. Patient support

All patients are invited to join a virtual meter training session at a date and time convenient to them. A range of useful information, leaflets and videos are also provided. Patients are also able to contact Spirit Health directly and the Spirit Implementer will help in answering their questions.
